Why Attend Wood Badge?

- Wood Badge is an advanced leadership course for every trained leader in Cub Scouts, Boy Scouts, Varsity, and Venturing, as well as District and Council leaders. Our goal is to have every adult leader attend Wood Badge within two years of joining their pack, troop, or crew.
- Wood Badge offers significantly more insight into Scouting and leadership than the basic training courses. You will associate with the finest Scouters in our Councils.
- Wood Badge provides leadership skills that make a difference; not only at Scouting but also at work and home.
- Wood Badge brings together leaders from the continuum of Scouting - Cub Scouts, Boy Scouts, Venturing, district and council service. The course reflects the best of nearly a century of Scouting experience and also draws upon the most current leadership models used by corporate America, academic circles, and successful leadership organizations.

How do I qualify?

- Be a registered member of the Boy Scouts of America.
- Have Completed the Basic Training for your current scouting position including any outdoor component for your Scouting position.
- Be capable of functioning safely in an outdoor environment.
- Have a current, complete (parts A, B, and C) BSA Annual Health and Medical Record for the course.

Scouters who have successfully completed prior versions of Wood Badge are encouraged to attend and complete Wood Badge for the 21st Century.

What Takes Place?

There are two parts to the Wood Badge training: the course itself and the practice of the leadership skills in your Scouting position after the course. This combination of hands-on, direct experience and application of leadership skills has proven effective in getting the most out of your training experience.

This six-day course meets over two three-day weekends, April 13-15, 2012 (early Friday morning through Sunday late afternoon) at Camp John H. Ware III in Peach Bottom, PA. and May 5-7, 2012 (early Saturday morning through Monday late afternoon) at Camp Horseshoe in Rising Sun, MD. There will be with at least one patrol meeting in between.

Part I: The Practical Experience:

Course attendees begin their Wood Badge experience as Cub Scouts, bridge into Boy Scouting, and form as a patrol for the majority of the course. Venturing is introduced during the second weekend. Through training sessions and application opportunities, participants explore and develop a wide range of leadership skills.

By the conclusion of the practical experience, each participant develops a contract or Ticket outlining how they will apply the skills learned during the two weekends to their role in Scouting.

Part II: The Application Phase

Each participant has up to 18 months to complete the five goals they designed in their Ticket. These five goals help the participant develop and demonstrate leadership skills in their own Scouting position while bringing their personal vision to life. When the ticket is successfully completed, the participant will be awarded their Wood Badge beads and certificate.
