

**ATTENTION ALL
TROOPS!**

You're Invited!

**To Camp Bashore's
SPRING BEAVER DAY!**

May 17-19, 2019

**(Work day is Saturday
May 18th)**

Dear Unit Leaders & Scouts;

As many of you know, during the past few months we have been conducting a logging operation in an effort to remove trees from our campsites and program areas that posed potential safety hazards. Many trees were removed, however the logger left behind many branches, sticks, and some logs that need to be cleaned up in addition to our normal spring maintenance.

This is where you come in! We are looking for any available, energetic troops to come in and help us to clean up the campsites, program areas, and trails throughout camp so that everything is ready in time for Summer Camp. You can choose to come out for the day, or camp for the entire weekend free of charge.

Some of the projects we are looking to accomplish are:

- ◆ Clearing brush, branches, and other debris from campsites and trails.
- ◆ Cleaning and Staining Latrines
- ◆ Leveling tent platforms and making minor repairs
- ◆ Cleaning and weeding planting beds around the Trading Post and Dining Hall.

We will provide all materials and tools. Please feel free to bring additional bowsaws, axes, rakes, pruners, and any other hand tools. Please contact Ranger Dave about power tools (chainsaws, weedwackers, hedge trimmers, etc..) Scouts should be prepared with work gloves, insect repellent and sunscreen.

Please contact Ranger Dave by email: david.matterness@scouting.org or call (717) 304-5796 to register or ask questions. Campsites will be assigned on a first-come, first-served basis. Preference will be given to "Adopt-A-Site" units.

Thanks for considering helping us to keep YOUR camp in top-notch condition!
