

March Membership Moment

Outstanding Educator Award

- An initiative to bring more youth into Scouting.
- Presenting the award is an act of service to schools (primarily elementary) and creates direct engagement with the school administration.
- The goodwill that results may open doors for Scouting to interact with students directly and to recruit them into our program.
- Recognizes what a person does for students in their professional role within education and not for what the person does directly for Scouting
- Purpose of this award program is to get access to schools where the flame of Scouting is not burning. In those schools, you will probably begin with the school administrator to seek out nominees.
- Guidebook at link below has nomination form, reference form, letter of recommendation, presentation script and certificate
