

The Ember of Summer

As we look forward to our summer camp programs, think about the campfires we will soon share. A single spark seems small, but at camp, that spark turns into a roaring fire that brings us together. That's what summer camp does for our Scouts - it takes the small skills they learned during the year and turns them into a blazing confidence, friendships, and memories that last a lifetime. Let's make sure every Scout has the chance to feel that warmth. As you return to your units, focus on the excitement, the safety, and the adventure. Let's get our Scouts to camp!
